

Dominican Medical Association of New England -Boston.

Over 25 Years of service

DOMINICAN MEDICAL ASSOCIATION (CMD)

New England–Boston Chapter

In collaboration with the Hispanic Association of Health Professionals (AHPSI)

October 6, 2026

Subject: An Invitation to Support Medical Education and a Legacy of Service

Dear Prospective Sponsor:

Some milestones honor our past while inspiring what we can accomplish together. With that spirit, we warmly invite you to make a financial contribution to the **VIII Annual International Medical Congress**, taking place in **Boston, Massachusetts, on November 21–22, 2026**.

This year, we celebrate two meaningful anniversaries: **135 years of the Colegio Médico Dominicano (CMD)**, the **Dominican Medical Association**, and **25 years of its New England–Boston Chapter**. The CMD's national organization represents a longstanding tradition of medical service and professional commitment in the Dominican Republic. Our chapter carries that legacy forward by bringing health professionals together through education, collaboration, and service to communities in New England.

Under the theme “**Medicine in Transformation: Scientific Advances, Technology, and Clinical Practice**,” the congress will unite physicians and other health professionals to share knowledge, explore developments in medicine, and strengthen connections that can benefit the people they serve. Our gathering will include a welcome reception and recognition ceremony on November 21, followed by the scientific program on November 22.

Behind this celebration are twenty-five years of dedication—colleagues sharing their expertise, volunteers giving their time, and supporters believing in the value of our mission. **Your donation will help us continue that work**, supporting the educational program and the resources needed to make this gathering possible.

We hope you will join us in honoring this legacy and investing in its future. A contribution at any level will be received with sincere gratitude and will help turn a shared commitment to medical education into a meaningful experience for our participants.

You are receiving, separately, information outlining the available sponsorship levels and the recognition associated with each. We would be pleased to discuss an option that aligns with your organization's interests or welcome a donation in another amount.

Thank you for considering this invitation. Your generosity can help make this anniversary a celebration of lasting impact, renewed purpose, and service to our communities.

With sincere appreciation,

Dr. Aritmedes Restituyo

President, Hispanic Association of Health Professionals (AHPsi)
