

Dominican Medical association, of New England-Boston
Over 25 Years of service

Support Medical Education and a Legacy of Service

VIII Annual International Medical Congress | Boston, MA | November 21–22, 2026

The Dominican Medical Association (CMD) – New England–Boston Chapter, in collaboration with the Hispanic Association of Health Professionals (AHPSI), warmly invites your financial support for our upcoming congress.

This year marks a historic double anniversary: **135 years of the CMD** and **25 years of our New England–Boston Chapter**. For a quarter-century, our chapter has united health professionals through education, collaboration, and community service. Under this year's theme, *"Medicine in Transformation: Scientific Advances, Technology, and Clinical Practice,"* the congress will bring together physicians and healthcare leaders to share critical knowledge and strengthen the medical community.

Why Your Donation Matters:

Your contribution directly supports the educational programs and essential resources needed to make this landmark event possible. By donating, you are honoring a 135-year legacy of dedication, investing in the future of medical education, and empowering healthcare professionals to better serve our communities.

A contribution at any level will be deeply appreciated and helps turn our shared commitment into a lasting, impactful experience for all participants.

We welcome donations of any amount or tailored sponsorship levels. Thank you for your generosity and partnership.
